

PETITE FRITURE AT + OTHER CIRCLE

Copenhagen, June 10–13, 2026

Petite Friture announces its participation in + Other Circle, the design exhibition taking place from June 10th to 13th, 2026 at The Lab in Copenhagen.

For the occasion, the independent French brand and design editor will present a curated selection of indoor and outdoor pieces that reflect its singular approach to contemporary design, where craftsmanship, innovation, and visual identity meet.

Inside the exhibition space, Petite Friture will unveil three reissued pieces from the *Sandows Collection* by French modernist designer René Herbst, presented alongside the *Fromme* chair by Tom Chung and a selection of iconic lighting pieces including *Vertigo* by Constance Guisset, *Neotenic* by Jumbo, and *Pyl* by Marie & Alexandre. Displayed on bouclé-carpeted podiums with mirrored steel plinths, the installation evokes a refined modernist elegance.

Launched in January 2026 as Petite Friture's first reissue collection, Sandows Collection reintroduces René Herbst's iconic 1927 modernist designs in collaboration with his archives and heirs. The collection includes the Chair N°212 alongside the Armchair and the Daybed N°114.

In the courtyard, Petite Friture will showcase a selection of outdoor pieces, including *Week-End* by Studio BrichetZiegler, unveiling for the first time the new *Sofa Lounge* pieces, and *Eclipse* by Garnier & Pingree, featuring a *Daybed*, *Lounge Chair*, and *Ottoman*. The *Week-End* and *Eclipse* collections will also debut two new glossy finishes — Black and Ivory — expanding the existing palette of 23 fine textured colors.

All upholstered outdoor pieces are developed in partnership with Métaphores, the celebrated textile brand belonging to Hermès' textile division, and presented in *Murmuration*, the reversible outdoor fabric by Métaphores. Combining technical innovation, refined craftsmanship, and a strong commitment to sustainability, the collaboration reflects the shared values of both brands.

Petite Friture + Other Circle

The Lab, Vermundsgade 40
June 10–13, 2026
